**NOTICE: RESIDENTS AND PROPERTY OWNERS:**

We continue to deal with very low reservoir situation but a leak has been found between the well and the water plant. Service will be shut off at 8 p.m. tonight until 7 a.m. Tuesday as this is emergency situation.

As the amount of the leak is unpredictable, please expect service to be shut-off periodically without notice until the repairs are made (which are expected to be during this week).

As a result, the Village will continue to be under a PDWA (aka boil water advisory) until the repairs and required follow-up testing are completed. Announcement through mailbox inserts & GX94 radio will notify when PDWA is no longer in effect.

Thank you for cooperation.
